REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method and apparatus for enabling demodulator in a receiver to efficiently lock onto a desired one of a plurality of channels over which a received signal may be transmitted. Each independent claims identifies the uniquely distinct features: "storing each of said carrier tracking loop frequency offsets as first offsets; determining the respective symbol timing recovery frequency offset corresponding to each channel in the receiver; storing each of said symbol timing recovery frequency offsets as second offsets; and retrieving said first and second offsets corresponding to the desired channel, said demodulator thereby using said recalled offsets for starting acquisition of said desired channel". All references of the record, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trang U. Tran whose telephone number is (571) 272-7358. The examiner can normally be reached on 8:00 AM - 5:30 PM, Monday to Friday.
